Dear Parent/Guardian and BCMS students,

Each year, the Missouri State High School Athletic Association presents an opportunity for students to write about sportsmanship at the middle school level. This year's essay topic is "select a public figure and explain how their actions and your experiences in sports/activities promotes growth and character." Students can also submit a PSA (see details) on "the roles of athletics/activities in deterring bullying and encouraging respect." The top essay or PSA project from our school will be selected by our judging panel to represent LSR7 at the District and hopefully State levels of competition.

If your student would like to submit an essay or PSA, they may do so by following the directions on the attached entry form and submitting their essay/PSA with the entry form to Student Administration office no later than Monday, December 5. The building level winner will be determined by December 15th and their piece will be moved on for consideration at the KC District level.

We encourage all students to consider a submission and thank you all in advance!

Sincerely,

Dr. Jacobs

Assistant Principal/Athletic Director

LSR7 Special Olympics

In LSR7 Special Olympics, we currently offer bowling, basketball, track and, most recently, flag football. We believe that all of our students should have the opportunity to learn athletic skills and compete in athletic competitions in a fun and nonthreatening environment.

Our Special Olympics athletes have an opportunity to letter at their respective high schools. Though students are also allowed to participate in other sports, clubs and activities in their own schools, we believe that it is important to offer these special opportunities for our students.

Special Olympics The physical, emotional and social benefits of participation in Special Missouri

Olympics are experienced both on the playing field and at home.

- Physical exercise positively impacts health, mood and anxiety. Emphasis on sports training helps athletes maintain a healthy weight.
- · Athletes participate in activities that enhance their self-esteem and help them see that they can achieve goals they set for themselves.
- · Athletes have many opportunities to make new friends and socialize in an environment that is accepting and encouraging.

Per Special Olympics regulations, a person must be at least eight years old. Children at the age of six may begin a training program but are not able to compete until the age of eight. A person must also be identified by an agency or professional as having one of the following:

- Intellectual Disability
- Closely related development disability, which means having functional limitations in both general learning and in adaptive skills such as recreation, work, independent living, self-direction, or self-care.

Mustang Shout-Outs

This week's Shout Outs!

I'd just like to thank the teachers that I met with at conferences- Ms. Lowe, Mrs. Lanoue, Mrs. Keller, Ms. Moore, and Mrs. Wickstrom. I appreciate all they are doing to help my daughter have an amazing year. Its so nice to have my normally, very moody 8th grader, come home with a smile on her face, and excited to share about her day. The effort they are each putting in to develop a trusting relationship with my daughter does not go unnoticed. Thank you all!!!

- -I appreciate Brady's willingness to step up and help out this week during conferences. He did so without hesitation and really helped us out. Thanks man!
- -Ms. Sarah Young, thank you so much for being such a wonderful teacher. When I'm having a bad day and I come in your room my day becomes so better. You make me laugh but also fill my brain with a ton of knowledge which I personally appreciate. Thank you Ms. Young.

- Prescription medication must be in the original bottle with the current order on the label.
- Must indicate a time on the bottle OR a separate order is needed. Rx must be current.
- Over the counter medication must be in the manufacturer's container and must be kept in the health room for student to

- If your student needs a wheelchair, walker or any other assistive device for mobility, it will need to be provided from home.
- Concussions- Students MUST be cleared by a doctor BEFORE returning to SPORTS/ACTIVITIES. Review the concussion
